## FROM MISS N

Term 1 will bring about new adventures for the students. We will introduce routines that provide student voice as they take charge of their learning environment. We will work hard at setting up a positive classroom culture and building relationships with peers and teachers. Students will need to take responsibility for their learning; asking questions, being organised, and challenging themselves to go above and beyond! We will begin our class website and build on it each week to keep families updated. Please feel free to visit us at <http://room20ifps.weebly.com/>
